

Nolan® N20 TRAFFIC

Paranuca
Neck roll

Visiera bombata con taglio ad occhiale
Convex goggle shaped visor

Nottoli laterali dal design metropolitano
Metropolitan design side cover plates

È disponibile in due misure di calotta esterna: in tal modo, peso e volume del casco sono sempre proporzionati alla taglia dell'utente.

N20 TRAFFIC è dotato di imbottitura interna di conforto amovibile e lavabile. Il sistema di ritenzione è Microlock. La visiera, di colore blu chiaro, è bombata con taglio ad occhiale; evita fastidiose infiltrazioni d'aria ed offre protezione UV fino a 400 nanometri.

XXS-M

L-XXL

It is available in two different external shell sizes: in this way the weight and volume of the helmet are in proportion to the rider's size.

N20 TRAFFIC is equipped with a removable and washable comfort padding. The retention system is Microlock. The convex, aviator style light blue tinted visor helps to avoid air infiltration and offers UV protection up to 400 nanometres.

N20 TRAFFIC è la proposta Nolan® per lo scooterista. Si caratterizza per il design particolarmente metropolitano, reso accattivante dalla visiera con taglio ad occhiale e dai nottoli laterali.

N20 TRAFFIC is the Nolan® helmet for scooter riders with a highly metropolitan design that is attractive thanks to its goggle shaped visor and side cover plates.

FRONT

N20 FIAT il Made in Italy elevato al quadrato per questa linea di caschi che vede accostati Nolan® e Fiat, entrambi marchi storici. La versione 500 rievoca la mitica automobile, riproducendone fedelmente il fronte ed il retro. La versione 500 EMOTICON può essere personalizzata utilizzando gli adesivi in dotazione, mentre la versione RACING propone il logo Fiat che da alcuni anni colora le piste della MotoGP. Su tutte le versioni è presente la bandiera italiana, un dettaglio importante che rimarca l'unicità di questa Collezione.

N20 FIAT the Made in Italy raised to the second power for this line of helmets that brings together Nolan® and Fiat, both historical brands. The 500 version evokes the legendary car, faithfully reproducing the front and back. The 500 EMOTICON version can be customised using the stickers provided, while the RACING version proposes the Fiat logo, which for some years has been filling with colour the MotoGP racetracks. The Italian flag is present on all versions, an important detail that emphasizes the uniqueness of this Collection.
